Summary:

Forex Envy is a system based on statistical probabilities. We have studied the forex market, and through careful analysis we have created an expert advisor that is truly profitable in live market conditions using real money. We have found that every currency pair forms a unique pattern or "signature". Forex Envy uses these unique signature patterns to create profitable baskets of trades that close to form a net gain. With our 110% Guarantee we are committed to creating a "win win" opportunity for our clients. If you buy Forex Envy and it fails to produce a profit, you get your purchase price back, plus 10%. If within the first 30 days of use Forex Envy fails to produce a profit while using HV or NV Long Cycle Modes as we recommend in our Getting Started section in the Members Area, we will refund your entire purchase price with an additional 10% for a total refund of 110%.
